OUR CLEAR DIFFERENTIATOR: DOING BUSINESS WITH THE FEDERAL GOVERNMENT

During the time NCC was U.S. Small Business Administration (SBA) 8(a) Certificate holder, we've established a proven track record following fair and federally approved regulations while providing services including Commercial and Residential professional construction. This status has not only set Northern Cheyenne Contractors (NCC) apart from it's industry counterparts, but also marks major milestones by doing business with U.S. General Services Administration (GSA) and Custom Border Patrol.

NCC was a premier contractor within the SBA 8(a) Set-A-Side Program. NCC is now a Graduated 8(a) firm and stands ready to assist with your upcoming federal projects. Our federal contracting tenure afforded us the ability to acquire and perform large prime contracting experience. Give us a call to discuss your next major project.
